This is the first office action for application number 09/869,618, Cabinet, filed on March 25, 2002.

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-3, drawn to panel mounting means for mounting panels of a cabinet.

Group II, claim(s) 4, drawn to method of securing in abutment two rectangular members at right angles.

Group III, claim(s) 5-8, drawn to a method of hanging panels on to form a cabinet.

The inventions listed as Groups III, II and I do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group I relates to a panel mounting means for mounting a panel mount to a side member or brace of a cabinet by engaging a hook portion of the mount with an opening in the side member or brace and the method of securing in Group II involves attaching two rectangular members by punching or drilling two sets of holes in the members and than connecting one set of the holes in the one member with the other and than engaging a fastener means with the other set of holes. The particular method of securing in Group II is not needed to mount the panel mount to a side member or brace in Group I. Group

Art Unit: 3632

relates to a method of hanging panels to form a cabinet, neither of the limitations in Group II nor Group I are needed to perform this method.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
